

## Adding Q&A to the Dashboard

1. Open the dashboard, and click on **Ask a question about your data**

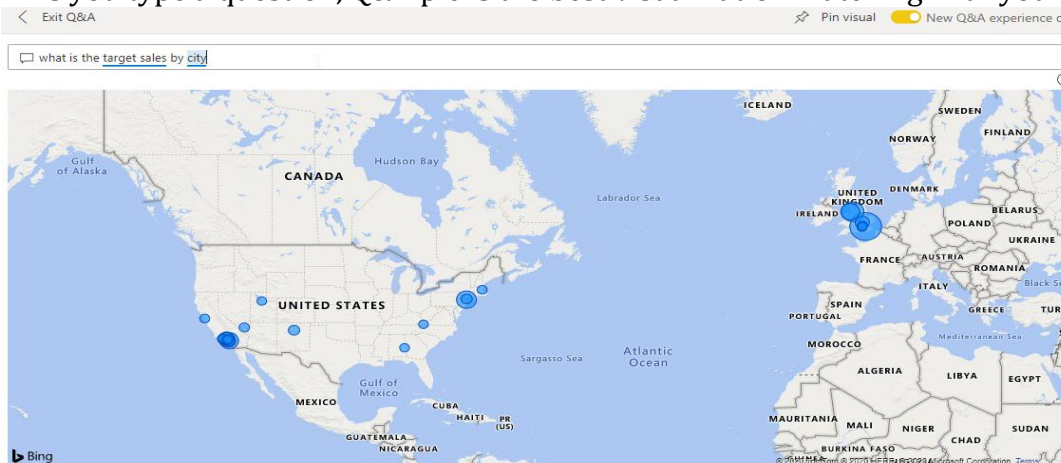

2. Even before you start typing; Power BI displays some suggestions for you

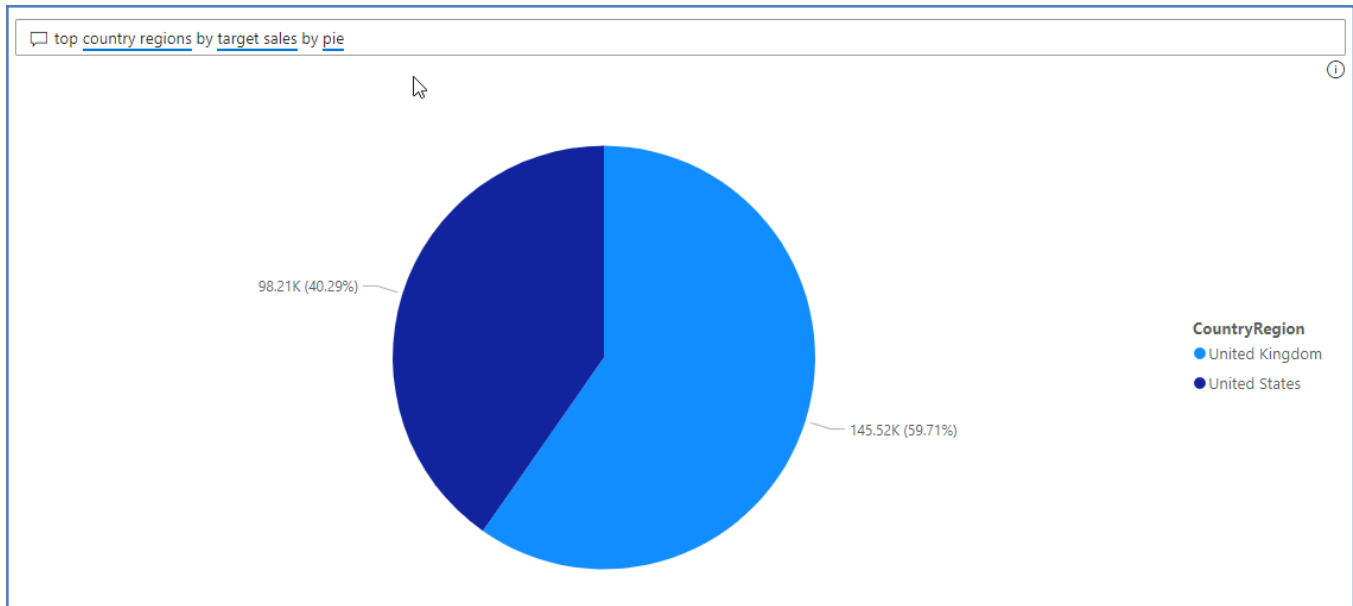

3. Either select any one from the suggestions or start typing your own

4. As you type a question, Q&A picks the best visualization matching with your answer

5. The visualization dynamically changes as you modify the question

6. Once you are satisfied with the visualization, if you want, you can pin it to the dashboard by clicking on the Pin icon
