

## Introduction to Machine Learning Assignment

---

### Problem Statement:

You work in XYZ Company as a Python. The company officials want you to build a data science model.

### Tasks to be performed:

1. Using sklearn import the wine dataset
  2. Split the data into train and test set
  3. Train the model
  4. Make Predictions
  5. Check the performance of the model using `r2_score`.
